Winner

Reuter

Reuter wins though Rothals is a close runner up. Especially in the last five to 10 games Rothals was impressive and showed he is not a first line defender in vein. Reuter scored 1+1 in the 41th game to even up the defense scoring.

Estimated winner after the regular season:

Reuter

Cutta only recently got his game really going and we are surprised if he doesn't reach 20 points. If both stay healthy Reuter and Rothals will get close to 30 but with an injury to either one the other one will probably gain the best defender rankings in the end.

Most effective forward nominees

Gove

Season

Balance	60	Handedness	Left

Winner

Marcel Frankovic

Ritola has been the most dangerous forward, but he hasnt been stably productive. With 7 games less, Frankovic still has the same amount of points and an impressive 60 % faceoff percentage is perhaps the fine line which makes him the most valuable forward of the team.

Most important player

Reuter (runner up Rothals, Ritola)

The most important trophy served and explained in three lines.

Leading pointscorer

	Player	Team	Games	Goals	Assists	Points	PIM	+/-	PPG	SHG	GWG
1	I. Reuter	STL	40	6	8	14	12	6	1	0	4
2	A. Rothals	STL	41	5	9	14	16	5	2	0	3
3	M. Francovic	STL	34	6	6	12	0	-7	1	0	0
4	D. Gove	STL	39	7	5	12	2	3	0	1	1
5	M. Ritola	STL	41	5	7	12	8	5	2	0	1

18	S. Goertzen	STL	18	1	3	4	2	-1	0	0	1

Reuter

Reuter gets the trophy with a small margin of one goal. Two defenders Reuter and Rothals lead, it is not a big surprise that they are on the top but most would have expected Ritola to lead.

Expected winner after season

(1. Ritola 2. Reuter 3. Rothals)

He will have to be the most important player as Frankovic will split time with Schliemann. Hopefully there are enough injuries so Frankovic only gets 20 or so more games. Talk about irony, hoping your most important attacker won't play.

Most goals

David Gove (7) runners up Barnes 6, Reuter 6, Frankovic 6

Seriously what the fuck? David Gove has the most goals. He is the forward with the most dangerous lousy shot as he has totalled 3 or 4 wing slapshots that just bounced over the goalie, add 2 empty netters.

Estimated top scorer in the end of regular season

Ritola (runner up Reuter)

Ritola has scored a zero dribbling goals but failed so many. Only started scoring 20 games ago and put up 4. Expect 10 goals more to his total.

Most assists

A Rothals (9) (runner up Cutta, Reuter 8)

Too much options who could win it after the season. I'd say 25 % Rothals, 25 % Reuter, 25 % Ritola, 12,5 % Frankovic, 12,5 % Cutta

Best plus minus

Billy Thomas (+13) Runner ups J. Lavallee and M. Bolda +10

Seriously what the fuck (times two)? Third line winger Billy Thomas leads CLEARLY AND FOURTH LINE WINGERS Lavallee and BOLDA THE WORST PLAYER IN THE GAME are second and third. Impressive especially for Bolda who doesn't have the worst shot of the team but still fails to score. On the other end we have our most important forward Frankovic in -7, clearly the last. Very controversial! Only explanation I can give is that Frankovic has to play against the very best players night in and night out.

Most Hits

	Player	Team	Shots	S%	FOW	FOT	GV	TK	Min	Hits
1	M. Gainey	STL	26	11.5%	0	0	0	0	707	56

24	I. Reuter	STL	14	12	6	1	0	4	1	86	7.0%
25	A. Rothals	STL	14	16	5	2	0	3	0	69	7.2%
26	B. Thomas	STL	8	8	13	0	1	1	0	51	7.8%
27	M. Francovic	STL	12	0	-7	1	0	0	0	75	8.0%
28	M. Grenier	STL	2	18	9	0	0	2	0	24	8.3%
29	J. Lavallee	STL	6	8	10	0	0	2	0	56	8.9%
30	R. Schliemann	STL	4	0	2	0	0	0	0	9	11.1%
31	M. Gaaney	STL	4	2	7	0	0	0	0	26	11.5%

1st and 2nd are actually Weinhandl and Mojzis with 0 goals, but only 21 and 22 shots. Cutta's and Bolda's inability to score is becoming legendary. Pikkarainen is here largely because he often is the person to let others in the first line to change and so often manages to sneak a shot through.

Winner

Joe barnes

6 goals against gove 7 but he has scored 3 or 4 of them as a defender which is odd. And he does score regularly, is dangerous in the offense; and scores nice goals, not odd bouncy slapshots. That is surprising if something. He also has the best shooting percentage of the team and a fine amount of tackles. Realistically expecting him to score less, but tackle more in the second half of the season. Lavallee has 5 goals and +10 in the fourth line with only 12:34 playing time per game. That is a good effort (plus 3 assists which he should have).

Lack of injuries in the defense

Winner

Afanasenkov

It is safe to say that the second goalie with 61 skill cant be good and his stats aren't half bad but what has shined out is his inability to play when the game is on the line. He has regularly completely broke down in the beginning of the game or in the very end. Played in 7 games, 6 losses, 1 overtime loss. And in that overtime loss

Afanasenkov let in 3 goals in 7 minutes, was switched off and our 3rd goalie Lius with 62 skill played a decent game.

Lack of injuries in the defense? Yes our 8th defender has only played 2 games, and only one was because of 2 injuries. But there are still good ground to have some sucky defenders injured and Ference in. Just hope the injuries wont strike Reuter or Rothals!

Most to gain in the second half

Split with Weinhandl & Schliemann

Weinhandl was nomited for the biggest disappointment and he is that mainly cause of his inability to produce. He is a very similar player than Ville Leino was last season for Buffalo. In our scale he is very technical and does things that none else does on the ice. But can't seem to be Johny on the spot or give hte decisive pass. His time will come im sure and he will have his moments in the season. Or maybe he is a playoff player?

Schliemann Its odd that a player who replaces Weinhandl regularly is the other trophygetter. Has only played 8 games and got 4 points. We only recently realized that through a loophole of two forwards being injured he can play. In about half of those 8 games he has been the best forward on ice. Still hasn't reached his full potential. With similar injuries he will play a lot more in the second half serving as a player we need to score the most points when he is active. We haven't had three forwards injured at the same time, but if that happens he and Ritola could get a new forward with SKATING ABILITY to the wing (yes we are looking at you Kaipainen). That is sounding like a line that could actually produce pressure.

Estimated points in the end season if a player plays 20 games.

Weinhandl 5 points in 20 games

Frankovic 6 points in 20 games

Schliemann 8 points in 20 games
